Contact our legislators and tell them with an equalized tax code, we can bring relief for our taxpayers and funding support for our schools. For convenience, we have drafted the email you can use when contacting the legislators listed on this card.

CONTACT YOUR LEGISLATORS

Dear Senator/Representative _____,

State funding for K-12 public schools has not kept pace with rising costs, additional mandates, and annual inflation. In addition, given the critical role property tax levies play in funding our schools, it is imperative that state policymakers take action during the 2017 legislative session to level the playing field for schools, students and taxpayers.

Districts are measured on the same achievement scale so why is the funding not equalized so ALL KIDS can be judged on the same playing field?

Please equalize the tax formula this legislative session by supporting House File 1381 and Senate File 1206.

Sincerely,
